

Mould Training Course

Unique, comprehensive one-day training course on how to recognize indoor mould, how to develop effective sampling strategies, how to interpret laboratory results and how to perform effective mould remediation/abatement.

Three Reasons Why You Should Attend

- This course equips you to fully deal with all aspects of indoor mould sampling and interpreting laboratory reports.
- You will have a chance to discuss and get possible solutions to some of the difficult situations or questions you encounter while doing mould investigations.
- You will have an opportunity to learn from others' experience.

Who Can Benefit From This Indoor Mould Training Course? You can, if you are

- An industrial hygienist
- An environmental consultant dealing with indoor mould
- A home Inspector
- A general contractor
- A cleaning and restoration contractor
- A property manager
- An insurance, financial, or legal professional who deals with mould issues
