Tape sample collection instructions:

- Wear suitable gloves and dust mask (if necessary)
- Cut 2 to 3 inches of clear scotch tape
- Hold tape at one end, place sticky side onto visible mold & press gently
- Remove tape and stick into a ziplock bag (do not fold the tape)
- Number the bag with a marker & identify the site sampled on the form. For example:
 - o #1: Basement, east wall
 - o #2: Window sill, master bedroom
 - o #3: Ceiling tile, kitchen
- You can also send pieces of material showing mould growth such as a piece of drywall, ceiling tile, carpet or even scrapings from a wall.
- Enclose samples in an envelope or bag and mail or deliver to Either:
